

## Atholton High School FIRST Robotics Team

## SpaceRAIDers #2537

Atholton Technology Boosters provides funding and support for a team of 80 students that participate all year round in training programs, outreach, and FIRST competitions. Funds from sponsors contribute to our annual operating budget of approximately \$40,000+.

Students that participate are learning far more than just robotics. These students are learning work-life skills that build confidence and will pave the way for the future. The students receive mentoring from industry experts and are learning a combination of technical and business skills. The community also benefits from the presence of this team at STEM related outreach events.

---

### SPONSORSHIP LEVELS AND INCENTIVES

#### Executive (\$10,000+)-

Recognition on our website, social media, and at events; Large sponsor logo or name on robot, competition banner, team T-shirt, and videos; Invitation to attend a “build” session with a student-led tour, presentation and demonstration of a competition robot by Space RAIDers students at your office or other appropriate location.
